Just wanted to let folks know that if they think they were exposed t...o a poison they can always call the Poison Control Center 1.800.222.1222. While we can't guess at what you were exposed to - if you know what it was - we can help you figure out if you need medical attention or if it is something you can handle on your own. We have a Medical Toxicologist on call to consult with your physician if that is needed. We are nurses and pharmacist that have been trained and tested in toxicology. Good luck out there and stay safe.

*S. David Baker, PharmD, DABAT | Director | Central Texas Poison Center | Office phone 254.724.7409*

Maybe this is something PCC can press forward on in social media arena and query hospitals/clinics to include SOC and JFO on medical and clinical guidance.
